MuJoCo: viewing xml files

- xml files: model and visualization

- In bin folder run ./simulate (mac/linux) or simulate (win)

- Drag and drop hello.xml from model folder

- Use the MuJoCo XML documentation to edit .xml files;

  https://mujoco.readthedocs.io/en/latest/overview.html

  Click "XML reference". Bookmark this page.

- We will modify hello.xml using XML reference.
